CENTRAL REEXAMINATION UNIT

STATUTORY DISCLAIMER UNDER 37 C.F.R. § 1.321

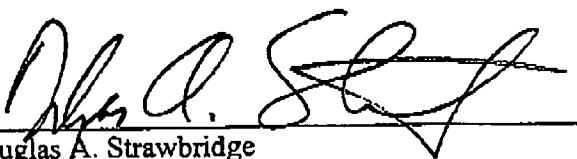

Petitioner, Anchor Wall Systems, Inc., a corporation organized and existing under the laws of the State of Minnesota and having its primary place of business at 5959 Baker Road, Suite 390, in the county of Hennepin, and the state of Minnesota represents that it is the owner of the entire right, title and interest in United States Patent No. 6,616,382 and entitled COMPOSITE MASONRY BLOCK, by virtue of our assignment recorded at: (i) Reel 5326, Frame(s) 414-416; and (ii) Reel 6308, Frames 505-507. Attached herewith is a Certificate under 37 C.F.R. § 3.73(b) establishing Anchor Wall Systems, Inc.'s right as assignee to take action.

On January 28, 2005, the United States Patent and Trademark Office ordered that all claims (specifically, claims 1-53) of United States Patent No. 6,616,382 be reexamined in *inter partes* proceedings and issued a Non-Final Action. The reexamination control number assigned to such reexamination is 95/000,059. Petitioner responded to that Non-Final Action on March 28, 2005. The Third-Party Requester submitted Comments on April 27, 2005. As of this date, the United States Patent and Trademark Office has not issued any further office actions in connection with such reexamination proceedings.

Petitioner hereby disclaims the following complete claims in United States Patent No. 6,616,382: claims 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, and 53. In making this disclaimer, Petitioner does not stipulate to, acquiesce in, or otherwise agree with any contention that such claims may be too broad, invalid or unenforceable.

By making this disclaimer, Petitioner, Anchor Wall Systems, Inc., is not disclaiming any portion of the subject matter, claims, or term of any other patents and/or patent applications owned by Petitioner, including those that claim priority to the application that issued as United States Patent No. 6,616,382, those that contain terminal disclaimers in view of United States Patent No. 6,616,382, those to which United States Patent No. 6,616,382 claims priority, and/or those in view of which United States Patent No. 6,616,382 contains a terminal disclaimer. Petitioner reserves the right and intends to maintain and enforce the claims recited in such patents for their full statutory terms as modified, if at all, by any previously-filed terminal disclaimers.

Signed at Minneltonka, State of Minnesota, this 16th day of August, 2006.
